

**Professor Marta Lopez**

Pathophysiology Course MEA 0234:

The Everglades is of utmost importance to we humans. It is even more important to our health and our ways of living.

Student will:

- 1) visit the Everglades.
- 2) write a research paper on the importance of the Everglades in correlation to health issues we face or may face in the future including but not limited to:
  - a. our water quality,
  - b. mercury in fish we eat,
  - c. how the whole ecosystem relates to our health... for instance - can a trip to the Everglades help a patient who is suffering from depression, stress or from anxiety?
