for the sake of
sustainability
and
conservation and preservation
for
The Seventh Generation
including
-ecological
-economic
-psychological
-social
-spiritual
for
use of appropriate technology
understands the importance of
with the goal of
-service to Earth
-observation of Nature
-intuition
-self inquiry & contemplation
-ceremony & ritual
for the sake of
encourages
values
takes a
holistic / systemic worldview
including systems such as:
functioning
"reticulate[]; not linear[]"
sees
Earth Literacy
treasures
diversity
which values
that take a
of
-historical & cultural perspectives
-life forms
-Spirit
-worldviews
and
approaches to problem solving
Earth systems as:
-communicating
-interdependent
-self-regulating
understands
inspires exploration of
recognizes
sees Earth
sees the human connection to Earth as
and supports
that foster
and the
the cyclical nature of ecological processes
a "new" cosmology
the growing ecological crisis
-compassionately
-respectfully
-with a sense of wonder
-with a great sense of hope & intention
-community member
-constantly evolving
-highly personal
-a positive "agent of change"
as
each individual's unique attempts to connect to Earth
including
from
and the need for
-matter & energy
-cause & effect
-change & equilibrium
birth of the Universe thru formation of our solar system to evolution on Earth
that includes the
a new paradigm
based upon
new values derived from an understanding of Earth's interconnectedness
with
self worth & significance
life & consciousness
and
