Teaching Plan for Water: A Water Ethic for Florida

http://www.collinscenter.org/resource/resmgr/our_florida/FloridaWaterEthic.pdf

Go to the web site Water: A Water Ethic for Florida by Cynthia Barnett.

Read the Article, View the film from the workshop and develop a 4-5 page paper. (see below)

View the film A Water Ethic from Cynthia Barnett's Presentation to MDC Faculty.

Reflect on her statement: "The most prosperous societies of the 21st Century will be those that figure out how to use less water- relieving pressure on both ecosystems and economies.(pg 6).

After viewing the film and reading the article:

Discuss two problems in Florida which are caused by our use of water. One page typed

Discuss the use of water for farming in Florida. "Farmers account for the largest portion of Florida's water use." (Barrett, pg 8). Identify ways to reduce agricultural use of water while maintain our agricultural economy. One page typed

Do you use bottled water? Why? Explore the pro's and con's. One page typed paper.
